

Editorial:

We've added something new . . .

In response to suggestions received from our recent questionnaire, we have added a new feature to our monthly service.

A number of our subscribers requested information concerning the "track record" of artists, producers, etc.

If you turn to the *Artist Index*, *Producers Index* and *Publishers Index* of this issue you will find a number following the names listed therein. This represents the number of hit records that individual, group or company has been associated with since the beginning of this year (Jan. 1976).

We hope you will find this added feature helpful . . . keep those suggestions coming in.

Sincerely,

Leonard Kalikow
Editor & Publisher

CONTENTS:
